RICHARD M. SNOW, M.D., F.C.C.P., A.C.P.
BOARD CERTIFIED IN INTERNAL MEDICINE,
PULMONARY MEDICINE & SLEEP MEDICINE

One of the most effective forms of treatment for sleep apnea is the CPAP machine. Once your studies are completed and if you are diagnosed with sleep apnea, you will be able to purchase the machine from Snow Sleep Center. The CPAP machine cost \$995.00 and if a heated humidifier is needed, the cost of that is an additional \$400.00. These costs will be billed to your insurance company. **If you choose to purchase your CPAP from Snow Sleep Center, we will require payment and the difference of what your insurance does not cover before obtaining your equipment.**

All insurance companies and group policies vary in the amount that they will pay for the machine. Most insurance policies require an **annual deductible** be met every calendar year and have a certain **percentage** that they will pay. These amounts will determine what the patient will be responsible for. Our office staff will be unable to quote you the exact amount due after your insurance company pays. If you are interested in knowing exactly what your insurance company will pay, we recommend that you contact your insurance for that information. You should be able to locate their number on the back of your insurance card.

I have read the above statement and agree to pay for charges and/or services rendered to me by Dr. Richard M. Snow and Snow Sleep Center.
